*Detailed Action*

*Response to Amendment*

1. Applicant's Remarks/Arguments filed on 10/31/2007 regarding claims 1, 3-7 have been fully considered. Claim 2 has been canceled by applicant. Claims 1, 3-7 are currently pending.

**EXAMINER'S STATEMENT OF REASONS FOR ALLOWANCE**

2. The following is an examiner's statement of reasons for allowance:

The present application relates to providing a fibre channel arbitrated loop system, comprising a route determination apparatus:

“the route determination apparatus configured for routing based on primitives by programming the crossbar switch to establish direct paths between the first and second ports in the crossbar switch according to the received OPN arbitrated loop primitives, the direct path excluding all other ports, wherein the crossbar switch is configured as a primitive switch.”

The closest prior arts, Berman (USP 6,118,776) discloses a fibre channel fabric system that comprises a router, and a switch core fabric coupled to a plurality of PCM modules to monitor arbitrated loop primitives. However, Berman fails to anticipate or render obvious the above quoted limitations of the present application. This renders the claims allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”
